

ROSSIAN
Ice Melters That Work.®

ice-foe®

WITH ISOTROL/2®

The patented advantage.

70 LBS
31.7 KG

- Unbeatable Speed and Performance
- Patented ISOTROL/2® melting accelerator
- Lowest Utepic Freeze Point -60°F (-51°C)
- Magnesium Chloride Free

Performance:

The faster an ice melter works, the less chance there is for a mishap to occur. That's why **ICE FOE®** contains the powerful melting accelerator ISOTROL/2®. **ICE FOE®** has been shown in Strategic Highway Research Program testing, to exceed the melt value of calcium chloride, magnesium chloride, sodium chloride and blends of these products.

Residual Action, No Residue:

ICE FOE® keeps on working long after ordinary ice melters have stopped and helps prevent refreezing. Used as directed, **ICE FOE®** dissolves rapidly, leaves no white powdery residue, and has little or no effect on concrete, sidewalks, roads, tires, floors or carpeting.

Safe for Concrete and Vegetation:

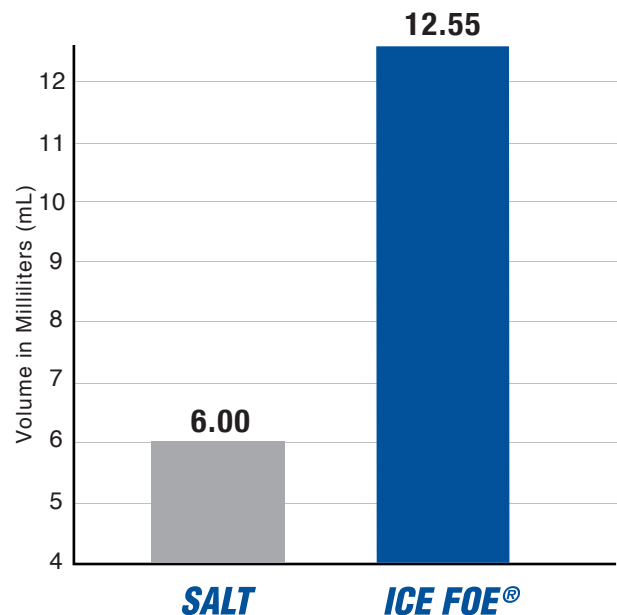

ICE FOE® will not harm concrete and vegetation when used according to label instructions. **ICE FOE®** contains no added magnesium chloride which has been shown in studies to chemically attack concrete (see website for details). Incorporating liquid anti-icing practices with dry application rates is essential to reducing chloride and salt impacts on the environment.

Powered by a Powerful Patented Accelerator:

ISOTROL/2®

The patented advantage.

TECHNICAL INFORMATION:	
Lowest Utepic Freeze Point	-60°F (-51°C)
Color	White / Pink Pellet Mix
Common Pkg Weight	70 lbs (31.75 kg)
Package Type	Drum / Carton / Pail
Patents	See website for more info

Ice melting comparisons are measured in milliliters using testing methods established by SHRP H-205.1 at 15°F for 20 minutes.

SINCE 2012 OSSIAN HAS PROVIDED MOBILE ACCESS TO OUR PRODUCTS' SAFETY DATA SHEETS THROUGH QR CODES ON ALL PACKAGES.
